

PT Toba Pulp Lestari's Sustainability Risk and/or Opportunity Program

PT Toba Pulp Lestari (TPL) Collaboration with Manggala Agni, and the Community in the Fire Concerned Community Program

TPL has established a program named, Fire Concerned Community (Masyarakat Peduli Api) in all its sectors/ Forest Management Unit (FMU). This program was established as part of its sustainability risk and opportunity program in which, TPL identified the risk of open fire/arson and the absence of a fire station in the locality. As a way of mitigating the risk, TPL together with the local community identified the solution to build the capacity of the local communities capacity to mitigate the risk of open fire/arson. Since inception, capacity building training is being constantly held on a periodic basis. Until now there are 39 villages and 96 members who participated in the Fire Concern Community program spread across 5 sectors of TPL. The activities undertaken by TPL with the Fire Concern Community include:

- 1.Forest and land fire control training;
- 2.Training in the use of manual fire fighting equipment and machine fire fighting equipment; and
- 3.Competition of Hose rolls, bag pump war, TRC (rapid reaction team), fire fighting techniques, and search for coordinates.
